Age-grade: An Age-grade is determined by the maximum age, as determined on 31st December of that specific year, of a player allowed to participate within the prescribed Age-grade. For example, the oldest player in the U13 Age-grade, would still be 13 years old on 31st December of the specific year in question

Minimum Age: The minimum age allowed in an Age-grade is determined by the age that you turn during the specific year in question. For example, if the minimum age is 11 on the 1st of January, then on the 31st of December of the same year, you would have to be 12 years old, having turned 12 years old during the specific year in question. You cannot have turned 11 on the 1st of January, as you would still be 11 by midnight on the 31st of December of the same year.

B - Regulations:

In School Rugby in South Africa, schools may set their own Age-grade divisions, but the following stipulations have to be implemented:

1. In “Primary School Rugby”, no player, who on the 1st of January in any given year, as defined under *Minimum Age*, is more than two (2) years younger, than the prescribed maximum stipulated age within an Age-grade category, may participate within that Age-grade during the year in question.
 - a. For example, if you turn 11 on the 1st of January or are younger than 11 (e.g. 10) on the 1st of January, you cannot be allowed to play in the U13 division within that year, as the oldest player in the U13 Age-grade, as defined above, would be 13 years of age, and having turned 13 during the year in question.

- b. The player may not be older than the stipulated Age-grade e.g. in the U13 division, a player may not be 14 years old or be turning 14 years old during the year in question
2. In “*Secondary School Rugby*”, subject to Clauses 3 and 6, no player, who on the 1st of January in any given year, as defined under *Minimum Age*, is more than two (2) years younger, than the prescribed maximum stipulated age within an Age-grade category, may participate within that Age-grade during the year in question.
 - a. For example, subject to Clause 3, if you turn 16 on the 1st of January or are younger than 16 (e.g. 15) on the 1st of January, you cannot be allowed to play in the U18 division within that year, as the oldest player in the U18 Age-grade, as defined above, would be 18 years of age, and having turned 18 during the year in question.
 - b. The player may not be older than the stipulated Age-grade e.g. in the U18 division, a player may not be 19 years old or be turning 19 years old during the year in question
3. In “*Secondary School Rugby*”, with the exception of Clause 6, the age band could be extended for a specific player(s) to a maximum three (3) year age-band, but only in keeping strictly within the following very important stipulations, aimed primarily at limiting the risk of catastrophic cervical spinal injury:
 - a. The **Coach**, who shall have no less than an **IRB Level 2** coaching qualification, wanting to select a younger player to participate in a league or division above their current Age-grade, as stipulated in Clause 2, has to submit a completed and accepted **SCHEDULE A**, and **SCHEDULE B** where applicable, to the appropriate Union’s offices, before selecting the player to train or participate in such a league or division
 - i. For example in the U18 Age-grade, the youngest player could be 15 years old, as per the *Minimum Age* definition, turning 16 during the year in question, but must have submitted a completed and accepted **SCHEDULE A**, and **SCHEDULE B** where applicable, to the Union’s offices, before training or participating in an U18 division squad or league
 - b. The players as described in 3(a) may **NOT** train or participate in a division above their Age-grade, in any of the positions locks, loose-forwards, scrumhalf, flyhalf, centres, wings and fullback, unless they have submitted a completed and accepted **SCHEDULE A** to the Union’s offices
 - c. The players as described in 3(a) may **NOT** train or participate in a division above their Age-grade, in any **front row** position i.e. positions tight-head prop, hooker or loose-head prop, unless they have submitted both completed and accepted **SCHEDULE A** and **SCHEDULE B** to the Union’s offices
 - d. Local research has identified the front row positions, especially the hooker, as having a higher risk for permanent catastrophic cervical spinal cord injury, especially in the scrum
4. **Teams** within “*Primary School Rugby*” e.g. U10, U11 and U13, have to compete within the specific age-banding required of their league or division as stipulated in Clause 1.
 - a. For example an U10 team cannot compete in an U11 league or division, as the youngest player in the U10 team could potentially be 8 on the 1st of January, as per the *Minimum Age* definition, and therefore not be able to compete within the U11 team structure, as they would be more than two (2) years younger than the oldest player in the U11 team.
5. **Teams** within “*Secondary School Rugby*” e.g. U15 and U16, subject to Clause 6 where applicable, have to compete within the specific age-banding required of their league or division as stipulated in Clauses 2 and 3.
 - a. For example an U15 team cannot compete in an U16 league or division, as the youngest player in the U15 team, without having submitted a completed and accepted **SCHEDULE A**, and **SCHEDULE B** where applicable, to the Union’s offices, could potentially be 13 on the 1st of January, as per the

Minimum Age definition, and therefore not be able to compete within the U16 team structure, as they would be more than three (3) years younger than the oldest player in the U16 team.

6. The current school system has to cater for U19 scholars, or players aged 18 years old, turning 19, or players having already turned 19 years old, during the year in question, and legally these players cannot be denied participation within the school rugby system. To maintain higher rugby safety standards given this limitation, the following stipulations need to be upheld:
 - a. The recommended two (2) year age-band for U19 level rugby, would normally field players aged 17 years old turning 18, and players 18 years old turning 19, during the year in question
 - b. Due to the small number of players aged 18 years old, turning 19, or players having already turned 19 years old, during the year in question, the U19 Age-grade, applied at School level only, will be expanded to accommodate a maximum three (3) year age-band
 - c. The expanded three (3) year age-band for the U19 School level Age-grade, will therefore include 16 year olds turning 17 years old during the year in question
 - d. The naturalistic majority of players in the U19 School level Age-grade, will come from 16 year old players turning 17, and 17 year old players turning 18 years old, during the year in question
 - e. There is no room for expansion to a four (4) year age-band under any circumstances
 - f. All *front row* players, tight-head prop, hooker or loose-head prop, within the U19 School level Age-grade, who fall outside the recommended two (2) year age-band, have to complete **SCHEDULE A** and **SCHEDULE B**, regardless of their circumstances, before playing U19 School level Age-grade rugby in these high-risk front row positions
 - g. The automatic three (3) year age-band expansion only applies to the U19 School level Age-grade and cannot be applied at any other School Age-grade or division
 - h. In keeping with Clause 5's stipulations, should an U19 School team wish to play against an U18 School team, or vice versa, the U19 team, at no time, may select or field any players who are 18 years old turning 19, or players who have already turned 19 years old, during the year in question
 - i. At no given time, may any U19 level Age-grade rugby team select or field players aged 19 years old turning 20, or players older than 20 years old, during the year in question
7. As supported by the South African Schools Rugby Executive Committee, players should play within their respective Age-grade divisions, as per the age-banding criteria stipulated above.
8. Rugby playing Schools have to cater for opportunities for all players to be able to play rugby, and with this in mind, an U16 Age-grade division (or U17 in Schools playing in U19 leagues or divisions) should preferably be catered for, where possible, as it is not desirable for players more than two (2) years younger than their prescribed Age-band, even within the stipulations above, to participate in U18 or U19 divisions.

*The coach has to assess the player against the following considerations. If there are any **NO** answers to any of the considerations, the player should **NOT** be allowed to participate in the Age-grade applied for, as this indicates an increased risk to safe participation in the Proposed Age-grade.*

Please Note: In exceptional cases, a player's physical, emotional, motor and cognitive development, skill level and experience, may be such that he may be allowed to participate in an Age-grade above his current two-year age-band. However, within the year in question, he, in keeping with the "Minimum Age" definition, may **not** participate in an Age-grade greater than three years above his age on the 1st day of January of that year.

The coach performing this assessment on the player shall have no less than an IRB Level 2 Coaching qualification. Physical Development:	Is the player physically developed, big, fit and strong enough to be able to adequately compete in his position within the age-division applied for?	YES	NO

	Have you completed the BokSmart Pre-participation screening questionnaire with the player?	YES	NO

I have explained to both the player and his parents or legal guardian, that the player will be competing in a higher age-division against older players and that this may normally involve an increased level of risk.
However, in my qualified opinion, the player's physical development, skill level and level of experience is of a sufficiently high standard so that the player can safely compete in the proposed Age-grade, in his nominated position, with no more risk of serious and catastrophic head, neck or cervical spine injury than any of the other participants that play in the same position applied for within the proposed Age-grade.

- I have been provided with and read a copy of the SARU Under-age guidelines applicable to School rugby Age-banding
- The coach has explained to me that in his qualified opinion the player's physical development, skill level, and level of experience is of a sufficiently high standard so that the player can safely compete in the proposed Age-grade, with no more risk of serious and catastrophic head, neck or cervical spine injury than any of the other participants that play in the same position applied for within the proposed Age-grade
- It has however been explained to me that the player will be competing in a higher age-division against older players and that this may normally involve an increased level of risk
- I understand that rugby is a contact sport, and like all contact sports, players are exposed to a risk of injury, and in the case of rugby union, albeit very few in number, potentially also catastrophic head, neck or cervical spine injury
- I acknowledge and fully comprehend that the level of risk of these injuries may be increased where a player competes above the two-year window, and where the player's physical development, skill level, and level of experience may potentially be inferior to that of the players that he may play against.
- I knowing the above agree to the extent permitted by Law, to waive any claims for liability against SARU, the Provincial Union, or any of its affiliate clubs, schools or rugby bodies, and any of its participants, including but not limited to players, coaches, referees, medical support staff, volunteers and administrators and release every such body or participant from all liability that may be incurred in connection with the player's participation in the proposed Age-grade
